The most recent ones were their "Full Studios" which had many features and tools that allowed players to go into the game engine and change things remotely. We are supposed to have it in our classroom but we only used it for homework so far. The thing that I don't like about this game is that some one really has to tell you what to do. They don't run the servers themselves so they often change things and cut off some features. It's also expensive, but I think it's worth the money.
